8th Annual Water Resources Strategies Symposium

MAY 17, 2017

CHALLENGING THE STATUS QUO

The MCWRS symposium featured an exceptional program of presentations from water industry professionals and state and municipal officials at the 8th Annual Water Resources Strategies Symposium.

The speakers' topics included, designing resilient and sustainable infrastructure; strategies for permitting and compliance; updates on the regional regulatory and legal fronts; lessons learned from Connecticut's and national nitrogen trading programs, and the possibility of nitrogen trading in Massachusetts; and the successful Alewife Stormwater Wetland project.

MCWRS President Phil Guerin (left) and Symposium Moderator Bob Cox (right) gather with George Hawkins, DC Water CEO and General Manager, after George's keynote address at the 2017 Symposium.
